

Premium Honey Varieties

Organic Honey

Description :

Our Organic Honey is harvested from untouched, pesticide-free environments, ensuring 100% purity and chemical-free processing. It is produced by bees that feed on wild, organically grown flora, making it free from antibiotics, additives, and artificial preservatives.

Key Features :

- Certified organic
- Raw, unfiltered & unpasteurized
- Non-GMO & free from added sugar

Taste & Aroma :

Smooth, medium-sweet with a light floral note and golden amber hue.

Health Benefits :

- Natural immunity booster
- Aids digestion & gut health
- Supports skin health & wound healing
- Powerful antioxidant and antimicrobial properties

Best For :

- Daily wellness rituals
- Tea sweetener or toast spread
- DIY skin masks & home remedies

SEO Key words :

Organic raw honey, pure organic honey, chemical-free honey, unprocessed honey for health

Multiflora Honey

Description :

Sourced from the nectar of various wild flowers blooming in forested regions, Multiflora Honey is a balanced, nutrient-rich blend of nature's diversity. Each harvest has a slightly different profile depending on the flowers in bloom.

Key Features :

- Raw & naturally extracted
- Rich in natural enzymes & phytonutrients
- Contains pollen from multiple floral sources

Taste & Aroma :

Mildly sweet with a rich, complex floral profile and a deep golden color.

Health Benefits :

- Great for seasonal allergy relief
- Promotes respiratory health
- Energy booster with slow-release sugar

Best For :

- Morning lemon water
- Smoothies, cereals & baked goods
- General wellness and detoxification

SEO Key words :

Multiflora honey benefits, wild flower honey, raw multi floral honey, natural immunity honey

Ajwain Honey

(Carom Honey)

Description :

Collected from bees foraging on Ajwain (Carom) blossoms, this honey is a rare medicinal variety prized in Ayurveda. It is known for its strong aroma and therapeutic properties.

Key Features :

- Mono floral honey with high medicinal value
- Traditionally used in Indian and Unani remedies
- Natural cough and cold remedy

Taste & Aroma :

Spicy and pungent with a warm, herbal note. Strong ajwain-like fragrance.

Health Benefits :

- Relieves indigestion, gas & acidity
- Helps in cough, cold & asthma
- Antibacterial & anti-inflammatory

Best For :

- Morning lemon water
- Smoothies, cereals & baked goods
- General wellness and detoxification

SEO Key words :

Ajwain honey for digestion, medicinal honey, carom flower honey, ayurvedic honey

Litchi Honey

Description :

Harvested from bees pollinating litchi orchards, Litchi Honey is a premium variety loved for its delicatetaste and high antioxidant content.

Key Features :

- Light & aromatic honey from litchi blossoms
- Harvested during litchi bloom season
- High in vitamins and natural enzymes

Taste & Aroma :

Subtly sweet with amildfruity and floral taste. Palegolden color.

Health Benefits :

- Rich in Vitamin C and polyphenols
- Supports skin radiance & metabolism
- Gentle on the stomach

Best For :

- Kids & elderly due to mild flavor
- Sweetening breakfast bowls or yogurt
- Natural dessert drizzle

SEO Key words :

Litchi honey benefits, light honey varieties, raw litchi blossom honey, honey for skin care

Tulsi Honey (Holy Basil Honey)

Description :

Our Tulsi Honey is made by bees feeding on nectar from the sacred Tulsi (Holy Basil) plant revered in Ayurveda for its healing properties. This honey is a wellness powerhouse.

Key Features :

- Infused with natural tulsi essence
- Combines the benefits of tulsi & honey
- Strengthens immunity & reduces stress

Taste & Aroma :

Earthy and herbal with a hint of sweetness. Greenish to amber in color.

Health Benefits :

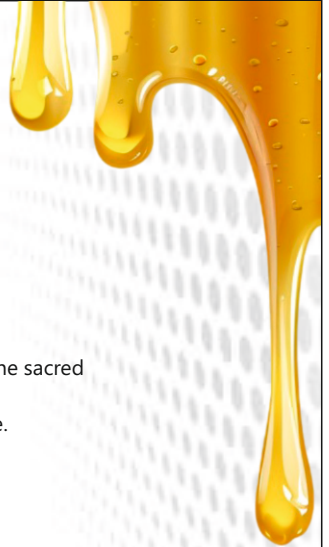

- Natural adaptogen (reduces stress)
- Effective in respiratory issues & sore throat
- Antiviral, antifungal, and antibacterial

Best For :

- Herbal teas & kadhas
- Immunity boosting drinks
- Holistic health routines

SEO Key words :

Tulsi honey for immunity, ayurvedic honey, holy basil honey, natural stress relief honey

Saunf Honey (Fennel Honey)

Description :

Collected from bees pollinating fennel (saunf) flowers, this unique honey variety has a refreshing licorice-like aroma and is often used for digestive wellness.

Key Features :

- Naturally infused with fennel nectar
- Aromatic & digestion-friendly
- Ideal after meals

Taste & Aroma :

Sweet, slightly tangy with a lingering anise-like flavor.
Pale to medium amber in color.

Health Benefits :

- Soothes digestive tract & bloating
- Supports hormonal balance
- Helps with menstrual cramps

Best For :

- After-meal digestive drink
- Women's wellness tonics
- Calming teas

SEO Key words :

Saunf honey for digestion, fennel flower honey, honey for bloating, women's wellness honey
